Sentimental Analysis

Name: C SOMA SEKHAR GOUD

Email id: somasekhargoud98@gmail.com

This is a brief overview of the work-flow

- Extracted web data from given URL's (Input.xlsx) into text files that are stored in **Scrape_text_files** folder.
- With provided StopWords text ,new_StopWords are generated by combining with inbuilt (English)Stopwords
- And MasterDictionary(positive & negative txt files) are cleaned by removing the stopwords from new_stopwords list
- Text is filtered as and analysis is performed as per instructions given in Text Analysis.

Used libraries: Beautiful soup, requests, pandas, nltk tokenizer , Regex.

Code Flow:
